The year is 2682. After a war against the Orcs, the dwarves emerge victorious. The surviving Orc prisoners are sent back into exile. Now, the Orcs must work to rebuild their cities and their cultures. Meanwhile, in the north, elves and humans have formed an uneasy alliance. New organizations rise to control the tribes and states of other lands. In the south, dragons are returning. In the Dark Ages, thousands of humans turn from the worship of the true Gods to worship the Darkness. The continent is at last being reborn. And the races are beginning to unravel.
