Overview of the Fluke model DVG-2100. access, download, transfer, diagnose and repair the Fluke DVG-2100. Fluke Insight® software is available in all countries but Fluke Insight system is not. Please. Weight, 4.2 kg (9.5 lb). Fluke InTeLL® VR10 759 V2.0-7256 wireless. model, FLUKE Insight® software and Fluke Connect® Pro software and is available in all countries but. Overview of the Fluke model DVG-2100. and the control unit, FLUKE iView®. image, demonstrate the raw accuracy of the DVG-2100.Q: WebView.loadUrl and javascript calls I have an Android app and I'm loading a new web view each time my app navigates to a different Activity. The web view is set up as follows: webView.getSettings().setJavaScriptEnabled(true); webView.getSettings().setBuiltInZoomControls(true); webView.setFocusable(true); webView.setFocusableInTouchMode(true); webView.getSettings().setSupportZoom(false); webView.getSettings().setBuiltInZoomControls(false); webView.setHorizontalScrollBarEnabled(false); webView.setVerticalScrollBarEnabled(false); webView.getSettings().setUseWideViewPort(true); webView.getSettings().setLoadWithOverviewMode(true); webView.getSettings().setAllowFileAccess(true); webView.loadUrl("file:///android_asset/index.html"); webView.getSettings().setSupportMultipleWindows(false); This setup works fine. The index.html contains some javascript that basically sends out an Ajax GET to a remote server and updates the screen with the result. The problem is that the
