If you think you're up to the challenge, customize your destruction pod and take on 21 intense courses." "Warcraft 3 players will feel right at home with the heavy metal, and even RTS veterans will be at home with the classically designed courses. Destroy, blast, and get the UMPH to the finish line for maximum points." "Finnish gaming legend Tommi Mattila and his team of engineers and programmers are working on this game. Their goal is to reach professional-level destruction simulation with a feel and feel of classic destruction games such as Castle Crashers, Hotline Miami, and Super Meat Boy." "Developed by a team of leading Finnish industry professionals, this game is something that I've had a lot of fun creating for. It's a truly fast-paced multiplayer game that's easy to pick up and learn, but hard to master.
